## HIT solar modules for European market

Dear Sir,

We would like to declare that following SANYO HIT modules are assembled at our factory in Hungary. The process includes stringing of the cells, assembly, lamination, and all electrical tests. This fulfils explicitly the Italian "Quarto Conto Energia" requirements for EU production as specified in the "Regole Applicative" issued in July 2011, page 31.

N type

HIT-N240SE10, HIT-N236SE10, HIT-N235SE10, HIT-N230SE10  
HIT-N240SE11, HIT-N236SE11, HIT-N235SE11, HIT-N230SE11

H type

HIT-H250E01, HIT-H245E01, HIT-H240E01  
HIT-H250E02, HIT-H245E02, HIT-H240E02

HDE type

HIT-240HDE4, HIT-235HDE4, HIT-230HDE4, HIP-230HDE1, HIP-225HDE1,  
HIP-220HDE1, HIT-240HDE4-2, HIT-235HDE4-2, HIP-230HDE1-2,  
HIP-225HDE1-2, HIP-220HDE1-2

For other models, from the serial number we can check and eventually declare the precedence of the modules.

Best regards,

Shigeki KOMATSU  
Solar division director
